Environmental and Experimental Botany 40 (1998) 297–298

Environmental and Experimental Botany

Contents of volume 40

VOL. 40 NO. 1 **AUGUST 1998**

The use of a conductivity measurement method for assessing freezing injury: I. Influence of leakage time, segment number, size and shape in a sample on evaluation of the degree of injury
I. Prášil and J. Zámečník (Praha, Czech Republic) 1

Effects of enhanced UV-B on growth and yield of two Syrian crops wheat (*Triticum durum* var. *Horani*) and broad beans (*Vicia faba*) under field conditions
M. Al-Oudat, S. A. Baydoun and A. Mohammad (Damascus, Syria) 11

Biochemical responses to an imposed water deficit in mature leaf tissue of *Festuca arundinacea*
G. A. Abernethy and M. T. McManus (Palmerston North, New Zealand) 17

Physiological responses of cotton leaves and roots to water deficit induced by polyethylene glycol
A. L. Nepomuceno (Londrina PR, Brazil), D. M. Oosterhuis and J. M. Stewart (Fayetteville, USA) 29

Emergent plant decomposition and sedimentation: response to sediments varying in texture, phosphorus content and frequency of deposition
S. M. Vargo, R. K. Neely and S. M. Kirkwood (Ypsilanti, MI, USA) 43

Toxicity of copper and zinc to two strains of *Scenedesmus acutus* having different sensitivity to chromium
H. Morsi Abd-El-Monem (Menoufia-Shebin El Koam, Egypt), M. G. Corradi and G. Gorbi (Parma, Italy) 43

Growth of the cushion-forming lichen, *Cladonia portentosa*, at nitrogen-polluted and unpolluted heathland sites
M. Hyvärinen and P. D. Crittenden (Nottingham, UK) 67

Reactions of Norway spruce and beech trees to 2 years of ozone exposure and episodic drought
M. Dixon, D. Le Thiec and J. P. Garrec (Champenoux, France) 77

VOL. 40 NO. 2 **OCTOBER 1998**

Pattern of photoassimilate partitioning in pseudobulbous and rhizomatous terrestrial orchids
C. S. Hew, K. T. Koh and G. H. Khoo (Singapore) 93

Molecular structure and biochemical toxicity of four halogeno-benzenes on the unicellular green alga *Selenastrum capricornutum*
F. X. Kong, W. Hu and Y. Liu (Nanjing, People's Republic of China) 105

Influence of ozone and soil nitrogen content on the stem anatomy of Norway spruce saplings grown in open-top chambers
E. U. Kurczyńska (Katowice, Poland), A. Bastrup-Birk and L. Mortensen (Roskilde, Denmark) 113

Responses of seedlings of selected woody species to soil oxidation-reduction conditions
S. R. Pezeshki (Memphis, TN, USA) and R. D. DeLaune (Baton Rouge, LA, USA) 123

Influence of temperature on primary and lateral root growth of sunflower seedlings
G. J. Seiler (Fargo, ND, USA) 135

Influence of fertilization and atmospheric CO_2 enrichment on ecosystem CO_2 and H_2O multiple-species grassland microcosms
A. L. Fredeen, G. W. Koch and C. B. Field (Stanford, CA, USA)

Morphogenesis of Douglas fir buds is altered at elevated temperature but not at elev
M. E. Apple, M. S. Lucash, D. M. Olszyk and D. T. Tingey (Corvallis, OR, USA

Solute incompatibility with glutamine synthetase in water-stressed *Populus nigra*
R. Sibout and G. Guerrier (Orleans, France)

Effects of solar UV-B irradiation on vegetative and generative growth of *Bromus cat*
G. Deckmyn and I. Impens (Antwerpen, Belgium)

VOL. 40 NO. 3

Effects of enhanced ultraviolet-B radiation on plant nutrients and decomposition of s conditions
M. Yue (Xian, People's Republic of China), Y. Li (Kumming, People's Republic (Kumming, People's Republic of China)

Comparison of the physiological responses of *Phaseolus vulgaris* and *Vigna unguiculata* c to drought conditions
M. H. Cruz de Carvalho, D. Laffray and P. Louguet (Créteil, France)

Nitrogen mineralisation and plant nitrogen acquisition in a nitrogen-limited calcareou
M. Unkovich (Nedlands, WA, Australia), N. Jamieson, R. Monaghan and D. Barr

Development of ultrastructural damage to chloroplasts in a plastoquinone-deficient m
R. R. Wise (Oshkosh, WI, USA) and W. B. Cook (Wichita Falls, TX, USA)

Probing short-term root exudation in *Zea mays*
S. Rhizopoulou (Athens, Greece) and E. Wagner (Freiburg, Germany)

Plant and fungal responses to elevated atmospheric carbon dioxide in mycorrhizal seed
H. Rouhier and D. J. Read (Sheffield, UK)

Tillering responses to red:far-red light ratio during different phenological stages in *Er*
C. Wan and R. E. Sosebee (Lubbock, TX, USA)

Susceptibility of CAM *Dendrobium* leaves and flowers to high light and high temperatur conditions
J. He, G. H. Khoo and C. S. Hew (Singapore)

Effects of sulfur dioxide on the development of powdery mildew of cucumber
M. R. Khan, M. W. Khan and M. J. Pasha (Aligarh, India)

Calcium modifies Cd effect on runner bean plants
E. Skórzyńska-Polit, A. Tukendorf (Lublin, Poland), E. Selstam (Umeå, Sweden) and Poland)

Author index of volume 40
Subject index of volume 40
Contents of volume 40

Influence of fertilization and atmospheric CO_2 enrichment on ecosystem CO_2 and H_2O exchanges in single- and multiple-species grassland microcosms
A. L. Fredeen, G. W. Koch and C. B. Field (Stanford, CA, USA) 147

Morphogenesis of Douglas fir buds is altered at elevated temperature but not at elevated CO_2
M. E. Apple, M. S. Lucash, D. M. Olszyk and D. T. Tingey (Corvallis, OR, USA) 159

Solute incompatibility with glutamine synthetase in water-stressed *Populus nigra*
R. Sibout and G. Guerrier (Orleans, France) 173

Effects of solar UV-B irradiation on vegetative and generative growth of *Bromus catharticus*
G. Deckmyn and I. Impens (Antwerpen, Belgium) 179

VOL. 40 NO. 3 **DECEMBER 1998**

Effects of enhanced ultraviolet-B radiation on plant nutrients and decomposition of spring wheat under field conditions
M. Yue (Xian, People's Republic of China), Y. Li (Kumming, People's Republic of China) and X. Wang (Kumming, People's Republic of China) 187

Comparison of the physiological responses of *Phaseolus vulgaris* and *Vigna unguiculata* cultivars when submitted to drought conditions
M. H. Cruz de Carvalho, D. Laffray and P. Louguet (Créteil, France) 197

Nitrogen mineralisation and plant nitrogen acquisition in a nitrogen-limited calcareous grassland
M. Unkovich (Nedlands, WA, Australia), N. Jamieson, R. Monaghan and D. Barraclough (Reading, UK) 209

Development of ultrastructural damage to chloroplasts in a plastoquinone-deficient mutant of maize
R. R. Wise (Oshkosh, WI, USA) and W. B. Cook (Wichita Falls, TX, USA) 221

Probing short-term root exudation in *Zea mays*
S. Rhizopoulou (Athens, Greece) and E. Wagner (Freiburg, Germany) 229

Plant and fungal responses to elevated atmospheric carbon dioxide in mycorrhizal seedlings of *Pinus sylvestris*
H. Rouhier and D. J. Read (Sheffield, UK) 237

Tillering responses to red:far-red light ratio during different phenological stages in *Eragrostis curvula*
C. Wan and R. E. Sosebee (Lubbock, TX, USA) 247

Susceptibility of CAM *Dendrobium* leaves and flowers to high light and high temperature under natural tropical conditions
J. He, G. H. Khoo and C. S. Hew (Singapore) 255

Effects of sulfur dioxide on the development of powdery mildew of cucumber
M. R. Khan, M. W. Khan and M. J. Pasha (Aligarh, India) 265

Calcium modifies Cd effect on runner bean plants
E. Skórzyńska-Polit, A. Tukendorf (Lublin, Poland), E. Selstam (Umeå, Sweden) and T. Baszyński (Lublin, Poland) 275
